Washington State Veterinarian's Regulations

Individual Certificates of Veterinary Inspection and an import permit number (which may be a blanket permit number issued to individual fairs) are required for all Out-of-State animals for entry. They will not be required for animals that originate in the State of Washington. The Out-of-State exhibitor's permit number for the 2010 Fair is 91- WA0951. Your veterinarian need not call the Washington State Department of Agriculture if they use this permit number on health certificates. A new number will be issued each year. No animal from a quarantined area or premises may be permitted to enter the Fair. Dairy females over 20 months of age and any bull over six months of age require a negative Brucellosis test within 30 days of shipment if being sold...no test required if for show only. Dairy bulls and heifers over six months of age require a negative Tuberculosis test within 60 days of shipment. Any breed cattle over six months of age from the states of California, Michigan, Minnesota, and New Mexico and the countries of Canada and Mexico require a negative Tuberculosis test within 60 days of shipment. All cattle are required to have an ownership inspection (brand) prior to leaving the state of origin. The Fair Veterinarian **MUST AND WILL** reject any animal with infectious or a contagious diseases or ectoparasites including, but not limited to, ringworm, warts, pinkeye, strangles, contagious ecthyma, scabies, lice, mites, ticks and fleas. Animals exhibiting disease symptoms during the course of the Fair will be rejected by the Fair veterinarian and removed from the exhibit area. The Fair veterinarian's professional decision as to the health status of an animal will be final and be upheld by Fair Management. Exhibitors needing veterinary services will call their own veterinarian at their own expense. It is strongly recommended, but not required, that cattle be vaccinated in the current show year against respiratory diseases.

CANADIAN CATTLE: All entries must comply with the State of Washington import requirements. Non-vaccinated Canadian cattle will be allowed entry to the Fair and return to Canada. A Certificate of Veterinary Inspection, an entry permit number, a negative Tuberculosis test within 60 days of shipment and a negative Brucellosis test within 30 days of shipment are required. If the cattle remain in the State, they must meet Washington Brucellosis and brand program requirements.

SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit prize money, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada. The following is a list of guidelines for all exhibitors and all livestock in competitive events.

1. All exhibitors must present, upon request of the Fair and livestock show officials, registration papers, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.
If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. All treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian any time after an animal arrives on the Fair premises.
5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, conformation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Assn of Fairs and Expositions, including Fairs and Expositions and any special notices to members.
11. The act of entering an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

HERDSMANSHIP CONTEST

The purposes of the Interstate Fair's Herdsmanship Contest are to educate the public on livestock and encourage exhibitors to care for animals, pens and equipment. The Fair revised the Herdsmanship Program in 2007 asking exhibitors to put an extra emphasis on educating the public through posters and/or creative displays. Exhibitors must receive a minimum cumulative score of 80% or better to be eligible to receive herdsmanship awards. Scores will be posted daily in each department.
