Notice of Application

The Spokane County Department of Building and Planning (Review Authority) has published this Notice of Application to provide the opportunity to comment on the described proposal. The comment period ends 14 calendar days from the date issued. During this period written comments may be submitted to the Review Authority. The file may be examined between the hours of 7:30 a.m. and 4:00 p.m. Monday through Thursday and 7:30 a.m. and 12:00 p.m. Friday (except holidays) at the Department of Building and Planning in the Public Works Building, 1026 W. Broadway, Spokane, Washington. Questions may be directed to the Project Coordinator listed below.

PROJECT #: B1500052 & B1500053
OWNER: ANDERSEN, THOMAS J & PAMELA S
CONTACT: JAMES A MCARThUR
APPLICATION DATE: 01/12/2015
DETERMINATION OF COMPLETENESS: 01/12/2015
SITE ADDRESS: 22021 E WELLESLEY - BLDG F & G
LOCATION: SPOKANE, WA 99027
PARCEL: 56343.9284
DESCRIPTION: MINI STORAGE - BLDG "F" & "G"
ZONING: Regional Commercial
OTHER PERMITS:
FURTHER STUDIES:

ENVIRONMENTAL REVIEW: The Department of Building and Planning has reviewed the proposed project for probable adverse environmental impacts and expects to issue a determination of nonsignificance (DNS) for this project. The optional DNS process in WAC 197-11-355 is being used. This may be the only opportunity to comment on the environmental impacts of the proposed project. The proposal may include mitigation measures under applicable codes, and the project review process may incorporate or require mitigation measures regardless of whether an EIS is prepared. A copy of the subsequent threshold determination for the specific proposal may be obtained upon request. The Spokane Environmental Ordinance governs any SEPA appeal and such appeal shall be filed within fourteen (14) days after the notice that the determination has been made.

EXISTING ENVIRONMENTAL DOCUMENTS

WRITTEN COMMENTS: Agencies, tribes and the public are encouraged to review and provide written comments on the proposed project and its probable environmental impacts. All comments received within 14 calendar days of the date issued below will be considered prior to making a decision on this application.

DEVELOPMENT REGULATIONS: Spokane County Zoning Code, Spokane County Subdivision Ordinance, Spokane County Standards for Roads and Sewer Construction, Spokane County Guidelines for Stormwater Management, Spokane County Critical Area Ordinance and the regulations of the Spokane Regional Health District are the primary regulations applicable to the site.

CONSISTENCY: In consideration of the above referenced development regulations and typical conditions and/or mitigating measures, the proposal is found to be consistent with the "type of land use", "level of development", "infrastructure", and "character of development".

PUBLIC HEARING: This action is not subject to a future public hearing.

REVIEW AUTHORITY: Dawn Dompiere, SEPA Coordinator
Randy Vissia, Building Director
Spokane County Building and Planning
1026 W Broadway Avenue
Spokane, WA 99260
(509) 477-3675

Date Issued: 1-16-15 Signature: Dawn Dompiere

The comment period closes at 4:00 p.m. on January 29, 2015.
ENVIRONMENTAL CHECKLIST

SPOKANE ENVIRONMENTAL ORDINANCE
SECTION 11.10.230[1]

Updated March 15, 2006
Environmental Checklist

Purpose of Checklist:
The State Environmental Policy Act (SEPA) chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An Environmental Impact Statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

Instructions for Applicants:
This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Use of checklist for nonproject proposals:
Complete this checklist for nonproject proposals, even though questions may be answered "does not apply."

IN ADDITION, complete the SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS (Part D).

For nonproject actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

A. BACKGROUND

1. Name of proposed project, if applicable: **AFFORDABLE SELF STORAGE 2**

2. Name of applicant: **JAMES MCAULIFFE, A.I.A., ARCHITECT**

3. Address and phone number of applicant or contact person: **4205 S. CREST LN, SPOKANE 99203**
   - 2-27-7943
4. Date checklist prepared: 1-12-2015

5. Agency requesting checklist: SPOKANE COUNTY BUDGET & PLANNING

6. Proposed timing or schedule (including phasing, if applicable): ASAP

7. a. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain. NO

    b. Do you own or have options on land nearby or adjacent to this proposal? If yes, explain. YES - LARGE MINI-GRID, COMPLEX

8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal. NONE

9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. NONE

10. List any government approvals or permits that will be needed for your proposal, if known. BUILDING PERMIT

11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page.

    2-BA. MINISTER BLOGS. 1 AT 8775 SF. 2 (AT 14,780 SF.) SITE IS 165' X 260'
12. Location of the proposal. Give sufficient information to a person to understand the precise location of your proposed project, including a street address, if any, and section, township and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit application related to this checklist.

13. Does the proposed action lie within the Critical Aquifer Recharge Area (CARA)?

   No

   1-12-15

High CARA

1-12-15

14. The following questions supplement Part A.

   a. Critical Aquifer Recharge Area (CARA)

      (1) Describe any systems, other than those designed for the disposal of sanitary waste, installed for the purpose of discharging fluids below the ground surface (includes systems such as those for the disposal of stormwater or drainage from floor drains). Describe the type of system, the amount of material to be disposed of through the system and the types of material likely to be disposed of (including materials which may enter the system inadvertently through spills or as a result of firefighting activities).

         NONE

(2) Will any chemicals (especially organic solvents or petroleum fuels) be stored in aboveground or underground storage tanks? If so, what types and quantities of material will be stored?

         NONE

(3) What protective measures will be taken to insure that leaks or spills of any chemicals stored or used on site will not be allowed to percolate to groundwater. This includes measures to keep chemicals out of disposal systems.

         N/A AGREEMENT TO NOT STORE CRITICAL MATERIALS. LEASE AGREEMENT IS ON FILE

   Project site is within mapped area of high susceptibility to groundwater contamination. CARA performance standards shall be met. 1-12-15
(4) Will any chemicals be stored, handled or used on the site in a location where a spill or leak will drain to surface or groundwater or to a stormwater disposal system discharging to surface or groundwater?  

[Signature]

b. Stormwater

(1) What are the depths on the site to groundwater and to bedrock (if known)?

[Signature]

(2) Will stormwater be discharged into the ground? If so, describe any potential impacts?

[Signature]

TO BE COMPLETED BY APPLICANT

B. ENVIRONMENTAL ELEMENTS

1. Earth

   a. General description of the site (circle one): flat, rolling, hilly, steep slopes, mountains, other:  FLAT

   b. What is the steepest slope on the site (approximate percent slope)?  NONE - 1:20

   c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any prime farmland.  VALLEY GRAVEL

   d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.  NO
e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill:

SEE CIVIL SHEETS IN OFFICE
GRADING TO DRAINS - CUT & FILL

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

NO

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)?

75%

h. Proposed measures to reduce or control erosion or other impacts to the earth, if any:

FLAT SITE - CONFORM TO
SPOKANE EROSION CONTROL STDS.

2. Air

a. What type of emissions to the air would result from the proposal (i.e., dust, automobile, odors, industrial, wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

MINIMAL - OCCASIONAL
CAR OR TRUCK TO UNITS.

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

NO

c. Proposed measures to reduce or control emissions or other impacts to air, if any:

DUST CONTROL DURING
CONSTRUCTION

3. Water

a. SURFACE:
(1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

NONE

(2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

NO

(3) Estimate the amount of fill and dredge material that would be placed in or removed from the surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

NONE

(4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

NO

(5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

NO

(6) Does the proposal involve any discharge of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

NO

b. GROUND:

(1) Will groundwater be withdrawn, or will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

SWALE ONLY - SEE CIVIL SHEETS
(2) Describe waste material that will be discharged into the ground from septic tanks or other sanitary waste treatment facility. Describe the general size of the system, the number of houses to be served (if applicable) or the number of persons the system(s) are expected to serve.

NONE

c. WATER RUNOFF (INCLUDING STORMWATER):

(1) Describe the source of runoff (including stormwater) and method of collection and disposal if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

SWALES & DRYWELLS
SEE CIVIL SHEETS

Could waste materials enter ground or surface waters? If so, generally describe.

NO - SURFACE IS FLAT, CONTAINED BY 6" RAISED DRYWELL - SEE CIVIL SHEETS

d. PROPOSED MEASURES to reduce or control surface, ground, and runoff water impacts, if any.

MEET SPOKANE COUNTY CRITICAL AREA ORDINANCE & STORMWATER MANAGEMENT GUIDELINES.

4. Plants

a. Check or circle type of vegetation found on the site:

____ Deciduous tree: alder, maple, aspen, other.

____ Evergreen tree: fir, cedar, pine, other.

√ Shrubs

√ Grass

Pasture

Crop or grain

____ Wet soil plants, cattail, buttercup, bulrush, skunk cabbage, other.

____ Water plants: water lily, eelgrass, milfoil, other.

____ Other types of vegetation.
b. What kind and amount of vegetation will be removed or altered?  
WEEDS & TOPSOIL REMOVED

c. List threatened or endangered species known to be on or near the site.

NONE

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any:

MEET SPOKANE ZONING REQUIREMENTS
SEE SHEETS L-1 & L-2

5. Animals

a. Circle any birds and animals which have been observed on or near the site are known to be on or near the site:
   birds: hawk, heron, eagle, songbirds, other:
   mammals: deer, bear, elk, beaver, other:
   fish: bass, salmon, trout, herring, shellfish, other:
   other:

b. List any threatened or endangered species known to be on or near the site.

NONE

c. Is the site part of a migration route? If so, explain.

NONE

d. Proposed measures to preserve or enhance wildlife, if any:

NONE

6. Energy and natural resources

a. What kinds or energy (electric, natural gas, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

LIGHTING, NO HEAT

b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

NO
c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

- Solar control of exterior lighting

7. Environmental health

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? If so, describe.

(1) Describe special emergency services that might be required.

- Fire

(2) Proposed measures to reduce or control environmental health hazards, if any:

- None

b. NOISE:

(1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

- Equipment during construction

(2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

- Construction

(3) Proposed measure to reduce or control noise impacts, if any:

- None
8. Land and shoreline use
   
a. What is the current use of the site and adjacent properties?  
   Rural Commercial N.W.  
   School South
   
b. Has the site been used for agriculture? If so, describe.  
   No
   
c. Describe any structures on the site.  Mini Storage
   
d. Will any structures be demolished? If so, which?  
   No
   
e. What is the current zoning classification of the site?  R-C
   
f. What is the current comprehensive plan designation of the site?  
   LDA Commercial
   
g. If applicable, what is the current shoreline master program designation of the site?  
   None (N/A)
   
h. Has any part of the site been classified as a critical area? If so, specify.  
   No
   
i. Approximately how many people would reside or work in the completed project?  
   None
   
j. Approximately how many people would the completed project displace?  
   None
k. Proposed measures to avoid or reduce displacement impacts, if any:  

NONE

i. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:  

NONE (GABLE ROOFS)

9. Housing

a. Approximately how many units would be provided, if any? Indicate whether high, middle or low-income housing.  

N/A

b. Approximately how many units, if any, would be eliminated? Indicate whether high-, middle- or low-income housing.  

N/A

c. Proposed measures to reduce or control housing impacts, if any:  

N/A

10. Aesthetics

a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?  

21'-10" METAL ROOF & SIDING

b. What views in the immediate vicinity would be altered or obstructed?  

NONE

c. Proposed measures to reduce or control aesthetic impacts, if any:  

NONE
11. Light and Glare

a. What type of light or glare will the proposal produce? What time of day would it mainly occur?

b. Could light or glare from the finished project be a safety hazard or interfere with views?

   NO

   MEET WA. STATE ENERGY & SPOKANE COUNTY ZONING REQ.

   Evaluation for Agency Use Only

   Proposal Hall Complete
   with Lighting 12-15

   School - South of Site
   Across Street

   NONE

   SHIELDED LIGHT

   12. Recreation

a. What designated and informal recreational opportunities are in the immediate vicinity?

   SCHOOL - SOUTH OF SITE

   ACROSS STREET

   NONE

b. Would the proposed project displace any existing recreational uses? If so, describe.

   NONE

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any:

   NONE

13. Historic and cultural preservation

a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe.

   NO
b. Generally describe any landmarks or evidence of historic archaeological, scientific or cultural importance known to be on or next to the site.

NONE

14. Transportation

a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.

SEE SHEET AO VICINITY PLAN
WELLESLEY & HARVARD ROAD

b. Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop?

NO

c. How many parking spaces would the completed project have? How many would the project eliminate?

EXISTING - 7

15. Public services
SPOKANE ENVIRONMENTAL ORDINANCE

(WAC 197-11-985) Section 11.10.220(1) File No. 815-52

a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.

POLICE & FIRE

b. Proposed measures to reduce or control direct impacts on public services, if any:

NONE

16. Utilities

a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other:

ELEC., REFUSE

b. Describe the utilities that are proposed for the project, the utility providing the service and the general construction activities on the site or in the immediate vicinity which might be needed.

EXISTING FIRE HYDRANTS

C. SIGNATURE

I, the undersigned, swear under penalty of perjury that the above responses are made truthfully and to the best of my knowledge. I also understand that, should there be any willful misrepresentation or willful lack of full disclosure on my part, the agency must withdraw any determination of Nonsignificance that it might issue in reliance upon this checklist.

FOR STAFF USE ONLY

Staff member(s) reviewing checklist: Dawn Dompier

Based on this staff review of the environmental checklist and other pertinent information, the staff concludes that:

X A. there are no probable significant adverse impacts and recommends a Determination of Nonsignificance.

B. probable significant adverse environmental impacts do exist for the current proposal and recommends a Mitigated Determination of Nonsignificance with conditions.

C. there are probable significant adverse environmental impacts and recommends a Determination of Significance.
