Notice of Application

The Spokane County Department of Building and Planning (Review Authority) has published this Notice of Application to provide the opportunity to comment on the described proposal. The comment period ends 14 calendar days from the date issued. During this period written comments may be submitted to the Review Authority. The file may be examined between the hours of 7:30 a.m. and 4:00 p.m. Monday through Thursday and 7:30 a.m. and 12:00 p.m. Friday (except holidays) at the Department of Building and Planning in the Public Works Building, 1026 W. Broadway, Spokane, Washington. Questions may be directed to the Project Coordinator listed below.

PROJECT #: B1500689
OWNER: HOWLAND, KAREN R
PHONE: 509-953-8118
CONTACT: HOWLAND, KAREN R
PHONE: 509-953-8118
APPLICATION DATE: 04/02/2015
DETERMINATION OF COMPLETENESS: 04/02/2015
SITE ADDRESS: 118 N DEEP CREEK RD
LOCATION: MEDICAL LAKE, WA 99022
PARCEL: 15183.9063
DESCRIPTION: SITE GRADING/REMOVAL OF DIRT FROM EXISTING ROCK BASALT WALL TO PROTECT EXISTING STRUCTURES & TO CREATE AREA FOR HORSES (3000 CU YDS)
ZONING: Rural Conservation
OTHER PERMITS: POSSIBLE NPDES THRU WA ST DEPT OF ECOLOGY
FURTHER STUDIES: NONE

ENVIRONMENTAL REVIEW: The Department of Building and Planning has reviewed the proposed project for probable adverse environmental impacts and expects to issue a determination of nonsignificance (DNS) for this project. The optional DNS process in WAC 197-11-355 is being used. This may be the only opportunity to comment on the environmental impacts of the proposed project. The proposal may include mitigation measures under applicable codes, and the project review process may incorporate or require mitigation measures regardless of whether an EIS is prepared. A copy of subsequent threshold determination for the specific proposal may be obtained upon request. The Spokane Environmental Ordinance governs any SEPA appeal and such appeal shall be filed within fourteen (14) days after the notice that the determination has been made.

EXISTING ENVIRONMENTAL DOCUMENTS: NONE

WRITTEN COMMENTS: Agencies, tribes and the public are encouraged to review and provide written comments on the proposed project and its probable environmental impacts. All comments received within 14 calendar days of the date issued below will be considered prior to making a decision on this application.

DEVELOPMENT REGULATIONS: Spokane County Zoning Code, Spokane County Subdivision Ordinance, Spokane County Standards for Roads and Sewer Construction, Spokane County Guidelines for Stormwater Management, Spokane County Critical Area Ordinance and the regulations of the Spokane Regional Health District are the primary regulations applicable to the site.

CONSISTENCY: In consideration of the above referenced development regulations and typical conditions and/or mitigating measures, the proposal is found to be consistent with the "type of land use", "level of development", "infrastructure", and "character of development".

PUBLIC HEARING: This action is NOT subject to a future public hearing.

REVIEW AUTHORITY: Kathy Cummings, SEPA Coordinator
Randy Vissia, Building Director
Spokane County Building and Planning
1026 W Broadway Avenue
Spokane, WA 99260
(509) 477-3675

Date Issued: 4-3-15
Signature: [Signature]

The comment period closes at 4:00 p.m. on 4-22-15
ENVIRONMENTAL CHECKLIST

SPokane Environmental Ordinance
Section 11.10.230[1]

Updated March 15, 2006
Environmental Checklist

Purpose of Checklist:
The State Environmental Policy Act (SEPA) chapter 43.21C RCW, requires all governmental agencies to consider the environmental impacts of a proposal before making decisions. An Environmental Impact Statement (EIS) must be prepared for all proposals with probable significant adverse impacts on the quality of the environment. The purpose of this checklist is to provide information to help you and the agency identify impacts from your proposal (and to reduce or avoid impacts from the proposal, if it can be done) and to help the agency decide whether an EIS is required.

Instructions for Applicants:
This environmental checklist asks you to describe some basic information about your proposal. Governmental agencies use this checklist to determine whether the environmental impacts of your proposal are significant, requiring preparation of an EIS. Answer the questions briefly, with the most precise information known, or give the best description you can.

You must answer each question accurately and carefully, to the best of your knowledge. In most cases, you should be able to answer the questions from your own observations or project plans without the need to hire experts. If you really do not know the answer, or if a question does not apply to your proposal, write "do not know" or "does not apply." Complete answers to the questions now may avoid unnecessary delays later.

Some questions ask about governmental regulations, such as zoning, shoreline, and landmark designations. Answer these questions if you can. If you have problems, the governmental agencies can assist you.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Use of checklist for nonproject proposals:
Complete this checklist for nonproject proposals, even though questions may be answered "does not apply."

IN ADDITION, complete the SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS (Part D).

For nonproject actions, the references in the checklist to the words "project," "applicant," and "property or site" should be read as "proposal," "proposer," and "affected geographic area," respectively.

A. BACKGROUND

1. Name of proposed project, if applicable: ____________________________

2. Name of applicant: Karen Howland  

3. Address and phone number of applicant or contact person: 118 N. Deep Creek Rd, Medical Lake, WA  509-953-8118  

PAGE 2 OF 16
4. Date checklist prepared: 11/1/2015
   
5. Agency requesting checklist: Spokane County Building & Planning
   
6. Proposed timing or schedule (including phasing, if applicable):
   Start date immediately
   And to be done within 2 yrs.
   
7. a. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain. No at this time.
   
7. b. Do you own or have options on land nearby or adjacent to this proposal? If yes, explain. No
   
8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal.
   Site used from Waste Bank regarding attics 4/1/15
   "
   
9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. No
   
10. List any government approvals or permits that will be needed for your proposal, if known.
    Grading permit
    "
    
11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page.
    Proposal is to remove 440 cubic yards of dirt from existing gravel area to be used for pasture for horses. 130’ x 150’ long by 90’ deep for horses.
    "
    
    Proposal for the removal of 3,000 cubic yards of dirt has been submitted 10/1/15
12. Location of the proposal. Give sufficient information to a person to understand the precise location of your proposed project, including a street address, if any, and section, township and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit application related to this checklist. 

13. Does the proposed action lie within the Critical Aquifer Recharge Area (CARA)?

   Does Not Apply

14. The following questions supplement Part A.

   a. Critical Aquifer Recharge Area (CARA)

   (1) Describe any systems, other than those designed for the disposal of sanitary waste, installed for the purpose of discharging fluids below the ground surface (includes systems such as those for the disposal of stormwater or drainage from floor drains). Describe the type of system, the amount of material to be disposed of through the system and the types of material likely to be disposed of (including materials which may enter the system inadvertently through spills or as a result of firefighting activities).

   Does Not Apply

   (2) Will any chemicals (especially organic solvents or petroleum fuels) be stored in aboveground or underground storage tanks? If so, what types and quantities of material will be stored?

     No

   (3) What protective measures will be taken to insure that leaks or spills of any chemicals stored or used on site will not be allowed to percolate to groundwater. This includes measures to keep chemicals out of disposal systems.

     Does Not Apply

Area is mapped within Moderate CARA, therefore project shall comply w/Spec. Co Critical Aquifer Ordinance.

KC 4/15/15
(4) Will any chemicals be stored, handled or used on the site in a location where a spill or leak will drain to surface or groundwater or to a stormwater disposal system discharging to surface or groundwater?

Does Not Apply

b. Stormwater

(1) What are the depths on the site to groundwater and to bedrock (if known)?

The basalt is down to about 30'

(2) Will stormwater be discharged into the ground? If so, describe any potential impacts?

Yes

TO BE COMPLETED BY APPLICANT

B. ENVIRONMENTAL ELEMENTS

1. Earth

a. General description of the site (circle one): flat, rolling, hilly, steep slopes, mountains, other: Very steep slopes

b. What is the steepest slope on the site (approximate percent slope)?

30 to 90 percent slope

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any prime farmland. Sandy loam

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe. Yes behind the house within 5 to 12'

Evaluation for Agency Use Only

SpoCo map indicates site contains erodible soil. 4/3/15
e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill:

There will be no filling with a flat grade up to 1%. Proposal is to cut 4,000 cubic yards to unknown destination and export of material. Shale is to a pre-approved source.

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe.

That erosion will stop once the grading is complete.

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)? None

h. Proposed measures to reduce or control erosion or other impacts to the earth, if any: Remove the dirt to get back to solid basalt rock wall.

3. Air

a. What type of emissions to the air would result from the proposal (i.e., dust, automobile, odors, industrial, wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

During will be a limited amount of dust and none once completed because it be grass planted.

b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe.

No

c. Proposed measures to reduce or control emissions or other impacts to air, if any:

Does not apply

3. Water

a. SURFACE:
(1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

Seasonal Spring is located on the far north end which will not be affected.

(2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

The spring will be 100' plus away from proposal.

(3) Estimate the amount of fill and dredge material that would be placed in or removed from the surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

None - Does Not Apply.

(4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known.

None - Does Not Apply

(5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.

No

(6) Does the proposal involve any discharge of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.

Does Not Apply

b. GROUND:

(1) Will groundwater be withdrawn, or will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.

Does Not Apply
(2) Describe waste material that will be discharged into the ground from septic tanks or other sanitary waste treatment facility. Describe the general size of the system, the number of houses to be served (if applicable) or the number of persons the system(s) are expected to serve.

Does Not Apply.

---

c. WATER RUNOFF (INCLUDING STORMWATER):

(1) Describe the source of runoff (including stormwater) and method of collection and disposal if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.

Drain into the ground.

Could waste materials enter ground or surface waters? If so, generally describe.

Does Not Apply.

---

d. PROPOSED MEASURES to reduce or control surface, ground, and runoff water impacts, if any.

Water will be kept within the graded area.

Project to comply w/ SPCC Critical Areas Ordinance. 4/19/15

---

4. Plants

a. Check or circle type of vegetation found on the site:

- Deciduous tree: alder, maple, aspen, other.
- Evergreen tree: fir, cedar, pine, other.
- Shrubs
- Grass
- Pasture
- Crop or grain
- Wet soil plants, cattail, buttercup, bulrush, skunk cabbage, other.
- Water plants: water lilly, eelgrass, milfoil, other.
- Other types of vegetation.
b. What kind and amount of vegetation will be removed or altered? 

Very little because it is steep slope it may be up to 3%. 

c. List threatened or endangered species known to be on or near the site. 

Does Not Apply. 

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any: 

Will be planting with a grass mixture for animals (horses).

5. Animals 

a. Circle any birds and animals which have been observed on or near the site are known to be on or near the site: 

birds: hawk, heron, eagle, songbirds, other: 

mammals: deer, bear, elk, beaver, other: 

fish: bass, salmon, trout, herring, shellfish, other: 

other: 

b. List any threatened or endangered species known to be on or near the site. 

Does Not Apply.  

C. Is the site part of a migration route? If so, explain. 

Does Not Apply. 

d. Proposed measures to preserve or enhance wildlife, if any: 

Does Not Apply.

6. Energy and Natural Resources 

a. What kinds or energy (electric, natural gas, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc. 

Does Not Apply. 

b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe. 

No it will enhance.
c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

Does Not Apply

7. Environmental health

a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste that could occur as a result of this proposal? If so, describe.

Risk of fire will greatly reduce

(1) Describe special emergency services that might be required.

Does Not Apply

(2) Proposed measures to reduce or control environmental health hazards, if any:

Does Not Apply

b. NOISE:

(1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)?

Does not apply

(2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

Short term noise by use of equipment

(3) Proposed measure to reduce or control noise impacts, if any:

Once completed the noise will not exist
8. Land and shoreline use

a. What is the current use of the site and adjacent properties? 
   Residential
   [Signature]
   [Date: 4/3/15]

b. Has the site been used for agriculture? If so, describe.
   No but that is why the proposal is being done--to use as agriculture. Brought my horses home for about 6 months but I was turned into scraps due to lack of horse area.

c. Describe any structures on the site.
   Manufacture home and a carport.

k. Proposed measures to avoid or reduce displacement impacts, if any:  
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:  
proposal will allow the horses an area for pasture.
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

9. Housing

a. Approximately how many units would be provided, if any? Indicate whether high, middle or low-income housing:  
Does Not Apply

b. Approximately how many units, if any, would be eliminated? Indicate whether high-, middle- or low-income housing:  
Does Not Apply

c. Proposed measures to reduce or control housing impacts, if any:  
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

10. Aesthetics

a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?  
Does Not Apply
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

b. What views in the immediate vicinity would be altered or obstructed?  
Does Not Apply
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________

C. Proposed measures to reduce or control aesthetic impacts, if any:  
change the view from a hillside to become a pasture for the horses
__________________________________________________________________________
__________________________________________________________________________
__________________________________________________________________________
11. Light and Glare

a. What type of light or glare will the proposal produce? What time of day would it mainly occur? The sun will be able to get through.

b. Could light or glare from the finished project be a safety hazard or interfere with views? Does Not Apply

c. What existing off-site sources of light or glare may affect your proposal? Does Not Apply

d. Proposed measures to reduce or control light and glare impacts, if any: Does Not Apply

12. Recreation

a. What designated and informal recreational opportunities are in the immediate vicinity? Does Not Apply

b. Would the proposed project displace any existing recreational uses? If so, describe. Does Not Apply

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any: Proposed measures control impacts on recreation because can't be used w/ riding horses.

13. Historic and cultural preservation

a. Are there any places or objects listed on, or proposed for, national, state, or local preservation registers known to be on or next to the site? If so, generally describe. Does Not Apply

Ginny Knowles
KC 7/2/15
b. Generally describe any landmarks or evidence of historic archaeological, scientific or cultural importance known to be on or next to the site. 

Does Not Apply

c. Proposed measures to reduce or control impacts, if any: 

Does Not Apply

14. Transportation

a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any. 

Does Not Apply

b. Is site currently served by public transit? If not, what is the approximate distance to the nearest transit stop? No

c. How many parking spaces would the completed project have? How many would the project eliminate? Does Not Apply

d. Will the proposal require any new roads or streets, or improvements to existing roads or streets not including driveways? If so, generally describe (indicate whether public or private). Does Not Apply

e. Will the project use (or occur in the immediate vicinity of) water, rail or air transportation? If so, generally describe. No

f. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak would occur. Does Not Apply

(Note: to assist in review and if known indicate vehicle trips during PM peak, AM Peak and Weekday (24 hours).)

15. Public services
a. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe. **Does Not Apply**

b. Proposed measures to reduce or control direct impacts on public services, if any: **Does Not Apply**

16. Utilities

a. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other:

b. Describe the utilities that are proposed for the project, the utility providing the service and the general construction activities on the site or in the immediate vicinity which might be needed. **Does Not Apply**

C. Signature

I, the undersigned, swear under penalty of perjury that the above responses are made truthfully and to the best of my knowledge. I also understand that, should there be any willful misrepresentation or willful lack of full disclosure on my part, the agency must withdraw any determination of Nonsignificance that it might issue in reliance upon this checklist.

FOR STAFF USE ONLY

Staff member(s) reviewing checklist: [Signature]

Based on this staff review of the environmental checklist and other pertinent information, the staff concludes that:

X  A. there are no probable significant adverse impacts and recommends a Determination of Nonsignificance.

   B. probable significant adverse environmental impacts do exist for the current proposal and recommends a Mitigated Determination of Nonsignificance with conditions.

   C. there are probable significant adverse environmental impacts and recommends a Determination of Significance.
