BLDG. & CODE ENFORCEMENT

Sept. 13, 2011

Spokane County Planning Commission

I am opposed to the proposed comprehensive plan located east of and adjacent to Thomas Mallen road in the NW ¼ of Section 8, Township 24N, Range 42 EWM.

I am opposed mostly because of the impact it has on the interstate interchanges which are dangerous enough as it is, especially the Medical Lake interchange area. The road needs to be widened and a possible light added to control the traffic both exiting and entering the freeway.

I'm also opposed because of the interchange at Geiger Heights. The traffic along the roads approaching these areas is narrow and unsafe.
