Subject: The 1999 Spokane County Coordinated Water System Plan Update

Dear Commissioners:

On behalf of the Water Utility Coordinating Committee, Economic and Engineering Services, Inc. (EES), in association with CH2M Hill, is pleased to present the 1999 Spokane County Coordinated Water System Plan (CWSP) Update. Preparation of the CWSP Update has been in accordance with the contract between Spokane County and EES dated October 16, 1997 through Resolution No. 97-1438.

The CWSP Update represents the continued efforts of Spokane County in managing the County's potable water resources according to all applicable State and County public policy. The CWSP Update provides a further refinement of process and strategy for existing water utilities to provide quality, responsive service in a manner that supports the Growth Management Act and the County's Comprehensive Plan.

We at EES wish to thank the Utilities Division staff and other County personnel for their assistance during preparation of this CWSP Update. We appreciate the opportunity to be of service to Spokane County and its citizens.

Sincerely,

John Maxwell, P.E.
Vice President
