Chair Chief Metzger.

Members please share your update on last month's assignments:

- Request weigh-station data from WSP on truck deficiencies and citations given that may affect public safety due to hazmat. Gabe with WSP is checking on data availability and how the LEPC can request this information.
- A proposed Rail Staging area in Spangle may become part of the Commodity Flow Study's concern. An inspection has been scheduled by the EPA on May 21, 2018. Any LEPC member is welcome to attend. (See complete schedule at the meeting or contact Gerry for details).
- The committee is contacting Spokane Regional Transportation Council (SRTC) to see how their processes, procedures, and data can assist and coordinate with the Subcommittee.
 - Mike Ulrich from SRTC has been invited. Unknown if he'll be able to make the meeting.
