Project Activity Report

From Issued Date: 06/22/2015 Thru 06/28/2015

Use: The metal culvert pipe which carries Deadman Creek under Elliot Road has failed and will be removed and replaced with a concrete box culvert in 2015. The existing pipe which is approximately 7 feet in diameter impedes fish passage on the creek. The new culvert, which was designed to comply with Washington State Department of Fish and Wildlife (WDFW) fish passage criteria, has a span of over 20 feet and will allow a "stream simulation" approach to fish passage. Spokane County has worked closely with WDFW to provide a crossing of Deadman Creek which is safe for vehicles in an environmentally friendly fashion. In addition the new structure will be constructed in stages to maintain traffic on Elliot Road throughout the life of the project and an automated traffic control system will be utilized to safely convey traffic through the work zone.
