

# Environmental Assessment Reevaluation

## Bigelow Gulch Road / Forker Road Urban Connector

### Spokane County, Washington

Federal Aid Number: STPUL-M320 (002)

This reevaluation was prepared per 23 CFR 771.129(c) because the project lapsed into a period of inactivity longer than 3 years. The reevaluation documents changes in the regulatory and physical environment that have occurred since the Finding of No Significant Impact (FONSI) was signed.

1. The original Environmental Assessment (EA) was completed January 2006.
2. A revised EA was completed November 2007.
3. The FONSI was signed by Federal Highway Administration April 10, 2008.
4. The project itself has remained unchanged since that time.

The changes identified in the reevaluation document are minor. The FONSI determination is still valid.

Roy Siegel, P.E.,  
FHWA Area Engineer
