Additionally minority business enterprises are encouraged to submit responses to this invitation.

4. **SERVICE DESIRED:** The proposed project is for the Design of the Spokane County Medical Examiner Facility. The County is seeking the services of an architectural/engineering firm (the “Design Professional”) to provide all design services, including the development of biddable documents, plans and specifications. The Design Professional will provide the complete schematic, design development, and construction documents. In addition, the Design Professional will provide construction contract administration services and shall be required to attend bi-weekly construction progress meetings.

Scope of Services

Background

The Spokane County Medical Examiner morgue is currently located at Holy Family Hospital. The County has been leasing this space since 1994. While this facility met the needs of the Medical Examiner in 1994, this is no

longer the case. The case load has increased substantially creating a situation where the facility is no longer adequate for the current needs. The Medical Examiner administrative staff is housed in a separate facility roughly one-quarter mile from the hospital.

In 2017, Spokane County purchased an existing structure at 102 S. Spokane St., Spokane, WA 99202, with the intent to renovate it for the new Medical Examiner Facility. This structure is approximately 19,300 square feet in size, all on one level, and sits on a developed site approximately 1.25 acres in size.

General Information and Requirements

The Design Professional (DP) shall provide comprehensive professional architectural and engineering services required for the programming, design, and construction of a new Medical Examiner's Facility, within the existing structure. The project entails the programming, needs assessment, design, medical equipment/furnishings planning, development of construction drawings and specifications, construction estimates, and construction administration of a new state-of-the-art facility, in the City of Spokane, Washington.

The DP will be tasked with the programming and design of a highly functional Medical Examiner's Facility that includes the latest technologies in forensic autopsy standards, mechanical and ventilation systems, electronic communication systems, and other functions to support the facility. While this is an existing structure with an already improved site, some minor site improvements are anticipated, which may include security fencing, trash enclosures, and parking lot striping.

Schedule

The DP's services are anticipated to commence in July 2018, with 100% Construction Documents being complete in January 2019. Bidding is anticipated to be complete in February 2019 with construction starting in March 2019. Completion of construction activities is anticipated to be by August 2019, with Owner move-in anticipated for September 2019.

Design Professional Requirements

The County is seeking the services of an architectural/engineering firm (the "Design Professional") to provide all design services, including the development of biddable documents, plans and specifications. The Design Professional will provide the complete schematic, design development, and construction documents. In addition, the Design Professional will provide construction contract administration services and shall be required to attend bi-weekly construction progress meetings. The successful Design Professional will be expected to contract with the Owner in a timely manner.

The offering firm shall be the primary contracting firm as the individual firm held responsible for fulfilling all contractual obligations. The primary contracting firm shall perform a minimum of 50% of the architectural design services (exclusive of engineering and specialty consultants) in-house. An associated firm (if necessary) may provide up to 50% of the architectural design services, allowing two or more architectural firms to share in the design effort on an equal basis. The Owner will not enter into "joint-venture" agreements with multiple design professional firms. In the event that two or more firms desire to joint-venture, one firm shall act as the primary firm. With either method (single or joint-venture), the Design Professional shall meet the Evaluation Criteria for design of similar facilities, including the level of experience with design of morgue/forensic/medical examiner facilities.

The Project will be constructed by a general contractor to be selected and contracted with separately by the Owner. It is expected the Design Professional will work closely with the selected contractor and any other consultants engaged by the owner and in the best interest of the Owner and the project.

A resolution by the Spokane County Board Of County Commissioners declaring a firm as the “most highly qualified” to perform the work referred to in this RFQ is not intended, nor will it in any way be construed or considered, to be a contract or an exclusive guarantee to furnish the services associated with this RFQ or any other work suitable to a firm of its type.

12.2. Any contract awarded will be nonexclusive and if it be in the County’s best interest it may award work to other firms. Any contracts resulting from this request for professional qualifications will be between the County and the provider of services and may be canceled upon written notification by the County.

13. CONTRACT: A contract for the work of the RFQ will be negotiated utilizing a Scope of Work (SOW) and fee prepared by the A/E. If an agreement cannot be reached with the selected A/E, the next “most highly qualified” A/E will be contacted for contract negotiations. The Contractor shall make available to the County, Washington State Auditor, Federal Grantor Agency, Comptroller General of the United States or any of their duly authorized representatives, at any time during their normal operating hours, all records, books or pertinent information which the Contractor shall have kept in conjunction with this Agreement and which the County may be required by law to include or make part of its auditing procedures, an audit trail or which may be required for the purpose of funding the services contracted for herein.

Payment will be based upon an itemized breakdown and documentation by the A/E that services have been performed to the date of termination and acceptance of said documentation by the County.

14.6.5. If the event of termination for cause due to a determination by the County that it is no longer the most highly qualified firm to carry on the work of the contract the A/E shall reimburse the County for all reasonable costs associated with the replacement of the A/E with a new A/E. In addition, and at no cost to the County or the replacement A/E, the terminated A/E shall provide the replacement A/E with the entire work product produced under the contract to the date of termination which is deemed necessary for the replacement A/E to carry on the work of the project

15. KEY EMPLOYEE(S): It is expected that the Project Manager and other key employee(s) upon which the A/E based its qualifications to perform the work of the RFQ will be the ones who perform the services on behalf of the A/E. Any proposed change in these key personnel shall give Spokane County the right to re-evaluate the qualifications of the A/E.

15.1. A written request by the A/E for a substitution or replacement of its project manager or other key employee(s) will be submitted to the County for review. The request will describe why the action is being requested and be accompanied by the documentation for the person(s) as called for in the RFQ's criteria section dealing with the competence of personnel and any applicable specialized experience. Based upon the County's review of the A/E's documentation, and any supplemental information that may have been submitted at the County's request, the County, may at its sole option: (1) approve the A/E's request in writing; or (2) deny the A/E's request and call for other substitute(s) or replacement(s) to be submitted for review; or (3) terminate the A/E's contract for cause and remove the A/E from the project.

Alternatively the County may procure and maintain, at the A/E's sole expense, insurance to the extent deemed proper up to the amount of the required coverage(s). The County may offset the cost of such insurance against any payment due to the A/E for any contract work delivered to Spokane County whether under this RFQ or not.
