- Q&A

WDOL to WD Transition Timeline

23 May: Transition Workshop #1 Labor Advisors

29 May: Transition Workshop #2 Open for COs, Wage and Hour, etc

5 June: Transition workshop #3 Open for COs, Wage and Hour, etc

14 June: URL Redirect implemented at 12:01 AM - WD is Authoritative in Beta.SAM.gov and WDOL is no longer accessible

WDOL to WD: Key Differences

WDOL uses a static home page with links to its content	WD has a search-based structure with some static content in the Learning Center
WDOL has no user accounts	Although WD can be used without an account for general searches, creating a Beta.SAM.gov user account adds the capability to save searches.
WDOL has email based alerts called subscriptions	Creating a WD user account allows for “following” which can be seen and managed as a list in the users account profile
WDOL requires the Contracting Officer to upload the finished CBA	Creating a WD federal user account allows users to start or modify a CBA Bargaining within WD without uploading
WDOL uses a separate database for archived WD’s	WD can search both active and archived together
WDOL provides the basic WD with changes	WD provides a time-line /history of changes to the WD

Known Issues

- *When using the filter, the page jumps back up to the top*
- *Printing out content has issues with margins*
- *When using sort on a results page, results may not sort appropriately*

To be Fixed with the API:

- Modification Dates not matching in history
- Statewide WDs, user should not select county (non standard WD)
- When using the workflow to find archived WDs, first search for the WD number using the workflow and then copy the WD number and search with “active” deselected

Use Cases

We will demonstrate key Wage Determinations functionality including:

- Finding Resources in the Learning Center
- Searching and Viewing Wage Determinations (Active and Archived)
- Finding DOL's "e98" Form
- Creating or Modifying a Collective Bargaining Agreement (CBA)
- Subscribing is now "Following" WDs
- Saved Searches
