WISe Wraparound Intensive Services

509.477.4539

WISe provides individualized services to ensure youth and their families live successfully in their homes and communities.

We Can Help

What is WISE?

Wraparound with Intensive Services (WISE) provides comprehensive behavioral healthcare services and supports to Medicaid-eligible individuals age 21 or younger and their families. WISE is dedicated to keeping youth with complex needs in their homes and communities, and to avoid or reduce costly and disruptive out-of-home placements. We believe WISE services will:

- Reduce the impact of mental health symptoms on youth and families, increase resiliency, and promote recovery
- Keep youth safe, at home, and progressing in school
- Help youth avoid delinquency
- Promote youth development and maximize potential to grow into healthy, independent adults.

Did You Know?

- WISE is a strengths-based program that accommodates eligible families by working collaboratively to meet their needs.
- The WISE team is comprised of a clinician, adult peer partner, family support specialist and a WISE clinical supervisor, and is available 24-hours per day.
- Services include intensive care coordination, treatment and support services, and crisis outreach.
- Services are community and home-based to ensure continuity of care.

Frontier Behavioral Health has more than 100 years of experience providing professional and culturally appropriate behavioral health services to people of all ages in collaboration with community partners. We prioritize the delivery of services for individuals and families who are at high risk, high need or publicly funded.
