Regional Emergency and Disaster Healthcare Coalition

Supporting Eastern Washington Communities
Healthcare Coalition
Response Functions

Carolyn Cartwright
Program Coordinator
December 2019
To prepare for, respond to and recover from crisis using all available resources to provide patient care at the appropriate level and in the most efficient manner.

The REDi Healthcare Coalition works to strengthen the emergency preparedness and response planning for all aspects of healthcare through community coordination and collaboration. Coalition participation is appropriate for all types of healthcare providers, mental health providers, EMS professionals, public health professionals, emergency managers and related services.
Objectives

- About the Coalition
- Response Process
- Response Examples
Total Healthcare Coalitions By Awardee

Separately Funded Localities
- Los Angeles County
- City of Chicago
- District of Columbia
- New York City

374 Healthcare Coalitions as of July 1, 2017

See an error, have an update? Send us a message.

bParati HCC Criteria
To be a healthcare coalition the organization must:
1. Be independently governed
2. Receive dedicated funding
3. Have independent budgetary authority
National Response Framework > Emergency Support Functions > ESF8

- Assessment of public health/medical needs
- Health surveillance
- Medical care personnel
- Health/medical/veterinary equipment and supplies
- Patient evacuation
- Patient care
- Safety and security of drugs, biologics, and medical devices
- Blood and blood products
- Food safety and security
- Agriculture safety and security
- All-hazard public health and medical consultation, technical assistance, and support
- Behavioral health care
- Public health and medical information
- Vector control
- Potable water/wastewater and solid waste disposal
- Mass fatality management, victim identification, and decontaminating remains
- Veterinary medical support
Patient Placement (Disaster Medical Coordination Center)

Patient Tracking (WATrac)

Mass Patient Movement
Healthcare Coalition Response Role

- 24/7 HCC Duty Officer
- Situational Awareness Response Process
- Resource Coordination
- Patient Tracking
- Coordination Calls
- WATrac Support
- EOC, ICP or ESF8 Liaison
Ebola and other Highly Infectious Disease
Windstorm 2015

Region 9 Healthcare Coalition Windstorm Update

Windstorm Situation Update #4
Date: 10/05/2015
Time: 2:00 PM

*Note: Regional Shelter Information:
- Get Local Headquarters, 2400 N. 7th, Spokane, WA 99001
- Valley Mission: 2300 W. Broadway, Spokane

Situation Update
- Aging & Long Term Care of Eastern Washington:
  1220 W. Park, Spokane, WA 99258
  - On primary power
  - Fully operational

- American Medical Response
  955 W. Skyway Ave, Spokane, WA 99205
  - On primary power
  - Fully operational

- Newman Hospital
  900 W. 4th Ave, Spokane, WA 99224
  - On primary power
  - Fully operational

- Providence & Via Via Dialysis
  Spokane, WA
  - On primary power
  - Fully operational

- Holy Family Hospital
  3200 W. Arliss St, Spokane, WA 99208
  - On primary power
  - Fully operational

IV Fluid Shortage

Region 9 Saline Shortage Situation Update #1
Date: 1/11/2018 Time: 10:00 AM

Region 9 Healthcare Coalition
Saline Shortage Situation Report

This report is intended to gather essential elements of information about affected healthcare providers to create situational awareness and assist with a coordinated response. This report should be used in conjunction with WASH for timely agency and bed availability status.

The critical shortage of IV fluid impacting our nation has been building in scope locally, with several rural critical access hospitals (CAH) in Region 9 citing concerns regarding order cancellations and diminishing supply. One CAH in Region 9 has already adjusted patient care procedures to accommodate IV fluid conservation strategies. Although our region serves Washington State Healthcare Preparedness Region 9 / East, we consider North Idaho healthcare providers to be essential partners due to the impact that their patient referral patterns have on our region.

Kootenai Health in North Idaho has been reporting supply chain challenges for about a month but after regular IV fluid shipments were canceled in December 2017, their available supply became critically low. In response, Kootenai Health requested aid from all hospitals in Idaho, North Idaho specialty hospitals, North Idaho ambulatory surgery centers, North Idaho plasma centers, veterinary centers, Washington State Region 9 Healthcare Coalition, Spokane County hospitals, and other local healthcare facilities for any available supply that could assist them in maintaining operations. Providence Health Care and MultiCare Inland Northwest were both able to contribute product helping stabilize the challenging situation.

After extensive inquiry within Idaho and Idaho Region 1, it was clear that additional state and federal assistance would be needed. In coordination with Kootenai Health, Panhandle Health District and Kootenai County Emergency Management worked with elected officials to issue a disaster declaration in Kootenai County on December 21, 2017.

To assist with the critical shortage at Kootenai Health, and the resulting disaster declaration, the Region 9 Healthcare Coalition has canvassed Region 9 hospitals, high IV fluid users like Plasma Centers and Ambulatory Surgery Centers, to identify any available product that can support regional critical access hospitals or Kootenai Health. We are diligently working to exhaust our regional resources to...
