CANTERBURY TERRACE – PHASE I
GRADING, EROSION AND SEDIMENT CONTROL PLANS
LOCATED IN THE SE 1/4 OF SECTION 20
AND THE NS 1/4 OF SECTION 29
T.20 N., R.43 E., W.M.
SPokane County, Washington
May 1996

RECORD DRAWING

EROSION & SEDIMENT CONTROL

GENERAL NOTES AND INFORMATION
1. This is a detail drawing for the project shown in the approved certified plans for this project. The project plans specify the design and materials for construction, erosion control, and sediment control.
2. The details shown are for guidance purposes only and are subject to change. The project plans take precedence.
3. The erosion/sediment control measures shown are in accordance with the project plans and specifications.
4. Special fabric is to be placed on the slopes to control erosion. The fabric is to be installed as shown in the plan.
5. The contractor is responsible for installation and maintenance of erosion and sediment control measures.
6. The contractor is responsible for maintaining and protecting the slopes during construction.
7. Erosion control measures shall be installed and maintained by the contractor.
8. The contractor is responsible for ensuring that the slopes are protected from erosion.
9. The contractor is responsible for maintaining the temporary erosion control measures.
10. The contractor is responsible for ensuring that all erosion/sediment control measures are installed and maintained as specified.
11. The contractor is responsible for ensuring that all erosion/sediment control measures are installed and maintained as specified.
12. The contractor is responsible for ensuring that all erosion/sediment control measures are installed and maintained as specified.
13. The contractor is responsible for ensuring that all erosion/sediment control measures are installed and maintained as specified.
14. The contractor is responsible for ensuring that all erosion/sediment control measures are installed and maintained as specified.
15. The contractor is responsible for ensuring that all erosion/sediment control measures are installed and maintained as specified.
16. The contractor is responsible for ensuring that all erosion/sediment control measures are installed and maintained as specified.
17. The contractor is responsible for ensuring that all erosion/sediment control measures are installed and maintained as specified.
18. The contractor is responsible for ensuring that all erosion/sediment control measures are installed and maintained as specified.
19. The contractor is responsible for ensuring that all erosion/sediment control measures are installed and maintained as specified.
20. The contractor is responsible for ensuring that all erosion/sediment control measures are installed and maintained as specified.
