GENERAL NOTES:

(1) All work and materials shall be in accordance with the "SPOKANE COUNTY STANDARDS FOR ROAD AND DRAINAGE CONSTRUCTION" and as approved.

(2) Locations of existing utilities shown in the plans are approximate. The Contractor shall be responsible for locating all underground utilities. Any conflicting utility shall be relocated prior to construction of road and drainage facilities.

(3) The Contractor is required to keep a complete set of the approved road and drainage plans on the job site whenever construction is in progress.

(4) In the event of any discrepancies between the plans and existing conditions on site, the Contractor shall immediately notify the Design Engineer and the Spokane County Engineer's Office.

(5) Prior to site construction, the Contractor is responsible for locating underground utilities. Call the underground utility location service at 438-0500 before you dig.

The design improvements shown in this set of plans and specifications form the applicable editions of Spokane County standards for road and sewer. The design plans and specifications are the result of a joint effort by Hahn Engineering Inc. and County staff. The Spokane County Engineer has approved all design deviations. I approve these plans for construction.
