CONSTRUCTION NOTES

1. Install straw bale erosion control, measure per bale, this sheet.
2. Install seed erosion control, measure per bale, this sheet.
3. Install mesh, 3’ by 30’ long per bale, this sheet.
4. Install 2’ wide, 6’ tall, 2’ in front per bale, this sheet.

THE REQUIREMENTS SPECIFIED ON THIS EROSION CONTROL PLAN MIGHT EXCEED THE REQUIREMENTS AS LISTED IN CHAPTER 4.0 OF THE SPokane County GUIDELINES FOR STORMWATER MANAGEMENT.

EROSION & SEDIMENT CONTROL

1. Complete design and implementation of the erosion control, seed erosion, and straw bale erosion on the site.
2. The design and implementation of the erosion control, seed erosion, and straw bale erosion on the site shall be as specified in the drawings and specifications.
3. The erosion control, seed erosion, and straw bale erosion on the site shall be monitored and maintained as specified in the drawings and specifications.
4. The erosion control, seed erosion, and straw bale erosion on the site shall be inspected and maintained as specified in the drawings and specifications.

MAINTENANCE

1. The contractor shall be responsible for installation and maintenance of all temporary erosion control measures.
2. Temporary erosion control measures shall be inspected and maintained every week.
3. Necessary repairs to erosion control, seed erosion, and straw bale erosion shall be made as needed.
4. Temporary erosion control, seed erosion, and straw bale erosion shall be maintained at all times.
5. Temporary erosion control, seed erosion, and straw bale erosion shall be removed at the project completion.
6. Temporary erosion control, seed erosion, and straw bale erosion shall be removed at the project completion.
7. Temporary erosion control, seed erosion, and straw bale erosion shall be removed at the project completion.

DRAINAGE BASINS

1. Design and construction of drainage basins shall be as specified in the drawings and specifications.
2. Drainage basins shall be designed and constructed to accommodate the expected flow rate.
3. Drainage basins shall be designed and constructed to accommodate the expected flow rate.
4. Drainage basins shall be designed and constructed to accommodate the expected flow rate.

STRAW BALE DETAIL

1. Straw bales shall be installed as specified in the drawings and specifications.
2. Straw bales shall be installed as specified in the drawings and specifications.
3. Straw bales shall be installed as specified in the drawings and specifications.
4. Straw bales shall be installed as specified in the drawings and specifications.

CATCH BASIN DETAIL

1. Catch basins shall be installed as specified in the drawings and specifications.
2. Catch basins shall be installed as specified in the drawings and specifications.
3. Catch basins shall be installed as specified in the drawings and specifications.
4. Catch basins shall be installed as specified in the drawings and specifications.

STRAIN SHEET

1. The contractor shall be responsible for the installation and maintenance of all temporary erosion control measures.
2. The contractor shall be responsible for the installation and maintenance of all temporary erosion control measures.
3. The contractor shall be responsible for the installation and maintenance of all temporary erosion control measures.
4. The contractor shall be responsible for the installation and maintenance of all temporary erosion control measures.

DEVELOPER'S APPROVAL

1. The developer shall be responsible for the installation and maintenance of all temporary erosion control measures.
2. The developer shall be responsible for the installation and maintenance of all temporary erosion control measures.
3. The developer shall be responsible for the installation and maintenance of all temporary erosion control measures.
4. The developer shall be responsible for the installation and maintenance of all temporary erosion control measures.

DATE

1. The date shall be documented as specified in the drawings and specifications.
2. The date shall be documented as specified in the drawings and specifications.
3. The date shall be documented as specified in the drawings and specifications.
4. The date shall be documented as specified in the drawings and specifications.
