For Immediate Release:

March 27, 2020

Single avenue for the community to report non-compliance of Governors “Stay Home Stay Healthy” order

Please use this as intended and not for minor complaints about your neighbor

In an effort to coordinate phone calls, emails, and social media concerns around businesses that remain open during the shutdown, Inland COVID-19 Response IMT has set up one contact point for the community.

Concerns should be directed to InlandBizCompliance@spokanecounty.org or call at 509-477-2684. Please provide the business name, address, if available, and your contact information in the event follow-up is needed. Your report will be directed to the appropriate law enforcement agency in Spokane County.

The coordinated Inland Business Compliance effort will direct your questions to the proper entity for any needed action.

To be clear, this is a reporting avenue only. You will not be contacted unless additional follow-up is needed. The information provided will be evaluated, and the business reached if they remain open in violation of the governor’s order.

The outreach resources are not intended to be used to report that your neighbors are not properly social distancing themselves. We are asking the community to self-regulate and use the email and phone number for more serious situations. Directing concerns to the email and phone number will take the load off our 911 and Crime Check systems so they can respond to other critical emergency situations.
