Spokane, WA 99260-0170

Document Title: Drainage Declaration of Covenant
Grantor: Michael E. Schmitz and Karen M. Schmitz
Grantee: Spokane County
Abbreviated Legal Description: NE ¼ of SEC. 20, TWN. 25N., RGE. 45E., W.M.; Plat of Mica View Meadows
Assessor's Tax Parcel Numbers: 55201.9110
County Reference No.: P-1957

SPOKANE COUNTY ENGINEER'S OFFICE
Spokane County, Washington

DRAINAGE DECLARATION OF COVENANTS

In consideration of the approval by Spokane County of the Plat of Mica View Meadows (P-1957), hereinafter referred to as the "plat"), undersigned covenants and agrees that:

Spokane County and its authorized agents are hereby granted the right to ingress and egress to, over and from all public and private drainage easements and Tracts for the purposes of inspection and emergency maintenance of drainage swales, ponds, ditches, culverts and other drainage facilities, if not properly maintained by the property owner(s). Spokane County does not accept the responsibility to inspect or maintain any drainage facilities and/or structures located outside of public rights-of-way, except in cases where Spokane County specifically assumes that responsibility in writing. Neither does Spokane County accept any liability for any failure by the property owner(s) to properly maintain such areas.

The property owner(s) within this plat shall be held responsible for keeping open and maintaining the surface path of natural or man-made drainage flow over and across their respective properties. If the property owner(s) fail to maintain the surface path of natural or man-made drainage flow, or drainage facilities on private properties, a notice of such failure may be given to the property owner. If not corrected within the period indicated on said notice, Spokane County has the right to correct the maintenance failure, or have it corrected, at the expense of the property owner(s).

Spokane County does not accept the responsibility of maintaining the drainage course on private lots or floodplain areas within private lots, nor the responsibility for any damage whatsoever, including, but not limited to, inverse condemnation to any properties due to deficient construction and/or maintenance of drainage courses in drainage easements on private property.

Any building that is constructed on a lot in this plat shall be set at such an elevation so as to provide positive drainage away from any drainage entry point to the building (including but not limited to a window well, a window unprotected by a window well, or a doorway). Said positive drainage shall meet the minimum requirements as set forth in the current building code. The lots shall be graded so that either a) all runoff is routed away from the building, and conveyed over the lot to a natural drainage swale or approved drainage facility, or b) drainage intercepted on the lot is disposed of on the lot in an approved drainage facility. All drainage facilities for this plat, including any '208' swales, shall be constructed in accordance with the accepted plans on file at the Spokane County Engineer's Office. Any proposed changes to the accepted road and drainage plans must be accepted by the Spokane County Engineer's Office prior to construction of said changes.

Spokane County Tax Exempt

Spokane County Treas.
By *Gilbert*

There may exist properties located uphill and adjacent to this subdivision which periodically discharge stormwater runoff onto individual lots within this plat. Stormwater runoff from nearby uphill properties should be expected, and during snow melt periods or wet seasons the lots may be subjected to higher amounts of stormwater runoff than what is normally observed or anticipated. Because stormwater runoff from adjacent properties has discharged onto this plat prior to development, stormwater runoff will likely continue to do so after development.

If groundwater or mottled soil is encountered during basement excavation, it is Spokane County's recommendation that protective measures that meet the requirements of the current building code, with respect to dampproofing and waterproofing, be implemented as a part of the basement foundation construction.

The property owner(s) within this plat shall maintain all natural drainage channels, drainage ditches, and water quality swales ('208' swales) situated on their respective properties, and any portion of a '208' swale situated in a public right-of-way adjacent to their respective properties, with a permanent ground cover as specified in the currently accepted plans on file at Spokane County's Engineer's Office. No structures, including fences, shall be constructed directly over or within a '208' swale without the expressed written consent of the Spokane County Engineer. Property owner(s) maintenance responsibilities shall include, but is not limited to mowing, irrigating, and keeping the area free of debris.

The developer and property owner(s) waive any and all claims for damages against any governmental authority arising from the construction, ownership or maintenance of public facilities. This waiver includes claims of any nature, including but not limited to person and real property damages as well as any inverse condemnation claims.

This covenant and agreement shall run with the land in perpetuity, and shall be binding upon the owner, their heirs, successors and assigns, including the obligation to participate in the maintenance of the drainage facilities as provided herein.

IN WITNESS WHEREOF, the aforesaid owners have hereunto set their hand this 3 day of Jan, 2007.

Michael E. Schmitz, Husband

Karen M. Schmitz, Wife

State of Washington
County of Spokane

I certify that I know or have satisfactory evidence that Michael E. and Karen M. Schmitz is the person who appeared before me, and said person acknowledged that (he/she) signed this instrument and acknowledged it to be (his/her) free and voluntary act for the uses and purposes mentioned in the instrument.

Dated 1-03-07

Notary Public in and for the State of Washington.
My Appointment Expires: 2-10-07
