FULL REPLACEMENT SECTION - 44TH AVENUE
STATION 14+27.04 TO 15+76.10
NOT TO SCALE

WIDENING SECTION - 44TH AVENUE
STATION 13+40.04 TO 14+27.04
NOT TO SCALE

TYPICAL STREET SECTION - WILLOW LANE
NOT TO SCALE
CONSTRUCTION NOTES

1. PROVIDE AND INSTALL GROOVED MEDIAN FOR FULL REPLACEMENT SECTION AND MEDIAN SECTION. SEE DETAILS A AND B SHEET 2.2.
2. PROVIDE AND INSTALL TYPE B VERTICAL CURB AND GUTTER PER SPOKANE COUNTY STANDARD PLAN A-3.
3. SAWNTOOTH EXISTING ASPHALT TO PROVIDE A CLEAR VERTICAL EDGE. THICK COAT AND WATER TO EXISTING ASPHALT WITH NEW ASPHALT.
4. PROVIDE AND INSTALL STOP SIGN AND STREET SIGN FOR SPOKANE COUNTY STANDARDS AND SPECIFICATIONS.
5. PROVIDE AND INSTALL SEWER MAST PER SPOKANE COUNTY STANDARDS AND SPECIFICATIONS.
6. PROVIDE AND INSTALL PEDESTRIAN RAMP PER SPOKANE COUNTY STANDARD PLAN A-5.
7. PROVIDE 10% TAPER FROM EXISTING EDGE OF PAVEMENT TO NEW CONCRETE GUTTER. SEE CALCULATIONS, THIS SHEET.

TAPER CALCULATIONS

\[ L = \frac{W}{0.8} \]

3.81(3.81) = 118.8

118.8/2 = 59 (ABATING)

E.S.C. STANDARD PLAN NOTES FROM APPENDIX 9A OF THE SPOKANE REGIONAL STORMWATER MANUAL

1. The following construction requirements shall be followed in order to meet the potential for erosion and sediment control, as follows:
   a) Select and Blair Stability for the installation of temporary E.S.C. Dams.
   b) Installation of temporary E.S.C. Dam, constructing segment drainage shafts as one of the first steps prior to grading.
   c) Clean and Blair Stability for the installation of temporary E.S.C. Dams.
   d) Cleaning and Blair Stability grading for roads, temporary access points and utility locations.
   e) Temporary roadway approaches and temporary access points with the appropriate construction drainage entry.

2. The contractor is responsible for maintaining road construction activities at any and all locations used to access or enter the project site. See details.

3. The contractor is responsible for designating a location where concrete trucks and equipment can be washed out, not located near or above a storm drain system area.

4. The project location in Spokane County, Washington is in the 14th of Section H, Township 25 N., Range 8 E. See map of project site.

5. The project description consists of 23 new lots for a total of 4,416 acres, the project includes construction of 1 new private road and all utilities required with all necessary drainage features.

6. Description of E.S.C. measures: Use of P.C. frames and sediment control filters. All E.S.C. measures mentioned above are temporary and will be removed after site is landscaped.

7. Existing vegetation: Field grass and weeds and trees

8. Landfill disposal:
   a) All debris and construction waste shall be removed as soon as possible.
   b) Debris and construction waste shall be removed to a legal disposal point as soon as possible.
   c) Use of P.C. frames and sediment control filters. All E.S.C. measures mentioned above are temporary and will be removed after site is landscaped.

9. Maintenance:

   a) The contractor shall be responsible for installation and maintenance of the temporary E.S.C. measures.
   b) Sediment control measures shall be inspected immediately after each rain-producing rainfall and at least daily during prolonged rainfalls.
   c) Work on roads or barriers or replacement of filter fabric shall be accomplished promptly.
   d) Sediment deposits shall be removed as soon as possible after each rain-producing rainfall. Deposits shall be removed when the level of deposition reaches 0.1 inch or more. This procedure shall be followed for the duration of the project. All sediment deposits remaining in place after the E.S.C. structure is no longer required shall be removed to the point of storage, and prepared and used as needed to assist in controlling sedimentation from the project area.
   e) All temporary and permanent E.S.C. practices shall be maintained and repaired as needed to assist in controlling sedimentation from the project area.
   f) All temporary and permanent E.S.C. practices shall be maintained and repaired as needed to assist in controlling sedimentation from the project area.
   g) It is the responsibility of the contractor to maintain and monitor the E.S.C. measures to ensure they are functioning as designed.
   h) It is the responsibility of the contractor to maintain and monitor the E.S.C. measures to ensure they are functioning as designed.
   i) It is the responsibility of the contractor to maintain and monitor the E.S.C. measures to ensure they are functioning as designed.
   j) It is the responsibility of the contractor to maintain and monitor the E.S.C. measures to ensure they are functioning as designed.

SRCAA GENERAL NOTES

1. DUST EMISSIONS DURING CONSTRUCTION, DEMOLITION, AND EXCAVATION PROJECTS SHALL BE CONTROLLED. THIS MAY REQUIRE THE USE OF WATER SPRAYS, SPRINKLERS, OR SUSPENSION OF ACTIVITY DURING CERTAIN WEATHER CONDITIONS.

2. MACHINES MUST BE MOVED TO THE SITE BY THE OWNER, AND THE SITE WILL BE FILLED IN AT THE END OF THE PROJECT.

3. COVER MATERIALS AS A RESULT OF THIS PROJECT, MUST BE DISPOSED OF BY OTHER MEANS OTHER THAN BURNING, ETC. (CONSTRUCTION WASTE, INDUSTRIAL WASTE, ETC.)

4. SPILLAGE CLEAN AND CARRY CAN DIRECTLY RECOMMEND TO ALL TRAVELERS (US. HIGHways, CARRIERS, CARRIERS, ETC.) TO BE PROPERLY DISPOSED OF, AND TO KEEP CLEAN TO MINIMIZE DUST EMISSIONS.

5. IF ELECTRICITY GIVES UP FROM THE PROJECT, FATAL ELECTRICAL APPARATUS AND MEASURES MUST BE TAKEN TO REDUCE SMOKE TO A MINIMUM.

6. SPECIAL ATTENTION SHALL BE GIVEN TO PROPER MAINTENANCE OF DREDGED CONSTRUCTION EMBANKMENT TO REDUCE THE IMPACT OF DREDGED EMBANKMENT, INCLUDING ACCIDENTS.

7. A NOTICE OF CONSTRUCTION AND APPLICATION FOR APPROVAL IS REQUIRED TO BE DETERMINED BY THE OWNER. THIS NOTICEMAY BE USED DURING THE CONSTRUCTION PERIOD UP TO 120 DAYS AFTER THE END OF THE PROJECT. THE PROJECT MANAGER SHALL BE NOTIFIED TO ASSIST IN MAINTAINING THE PROJECT.

8. NOTICES OF CONSTRUCTION AND APPLICATION FOR APPROVAL IS REQUIRED TO BE DETERMINED BY THE OWNER. THIS NOTICEMAY BE USED DURING THE CONSTRUCTION PERIOD UP TO 120 DAYS AFTER THE END OF THE PROJECT. THE PROJECT MANAGER SHALL BE NOTIFIED TO ASSIST IN MAINTAINING THE PROJECT.

9. NOTICES OF CONSTRUCTION AND APPLICATION FOR APPROVAL IS REQUIRED TO BE DETERMINED BY THE OWNER. THIS NOTICEMAY BE USED DURING THE CONSTRUCTION PERIOD UP TO 120 DAYS AFTER THE END OF THE PROJECT. THE PROJECT MANAGER SHALL BE NOTIFIED TO ASSIST IN MAINTAINING THE PROJECT.

10. A NOTICE OF CONSTRUCTION AND APPLICATION FOR APPROVAL IS REQUIRED TO BE DETERMINED BY THE OWNER. THIS NOTICEMAY BE USED DURING THE CONSTRUCTION PERIOD UP TO 120 DAYS AFTER THE END OF THE PROJECT. THE PROJECT MANAGER SHALL BE NOTIFIED TO ASSIST IN MAINTAINING THE PROJECT.

11. A NOTICE OF CONSTRUCTION AND APPLICATION FOR APPROVAL IS REQUIRED TO BE DETERMINED BY THE OWNER. THIS NOTICEMAY BE USED DURING THE CONSTRUCTION PERIOD UP TO 120 DAYS AFTER THE END OF THE PROJECT. THE PROJECT MANAGER SHALL BE NOTIFIED TO ASSIST IN MAINTAINING THE PROJECT.
