The Water Cycle, the Aquifer, and How We are Part of It.

The Spokane Valley – Rathdrum Prairie Aquifer, the Spokane River, and our many area lakes are part of a larger water cycle that includes rain, snow, evaporation, transpiration, drinking water, storm water, and wastewater. All water uses are part of the water cycle, and many are shown here. How many can you find? Being aware of our water activities allows us to make good choices that help maintain our aquifer and river so we can continue to have clean & plentiful water.
