GENERAL NOTES
1. All areas specified herein and construction of site improvements shall be executed in accordance with the plans, specifications, and other documents constituting the contract documents. The construction contractor is directed to observe the contract documents and this notice and to ensure that the site improvements are properly constructed.
2. The contractor shall be responsible for maintaining a clear and safe working area at all times. This includes the proper installation and maintenance of all necessary safety devices, such as barriers, signs, and other protective equipment, to ensure the safety of workers and the public.
3. The contractor shall be responsible for obtaining any necessary permits from all appropriate authorities prior to commencing any work on or adjacent to public streets, highways, or other public property.
4. The contractor shall be responsible for completing all work in a safe and satisfactory manner, and for leaving the site in a clean and safe condition.
5. The contractor shall be responsible for maintaining a safe and healthy working environment for all employees.
6. The contractor shall be responsible for preparing a site plan showing the location and layout of the site improvements.
