### **TREE & VEGETATION DEBRIS**

#### **from the Gray Rd and Oregon Rd Fires**

For tree debris we can take branches/limbs at a size of maximum 6 feet in length, 3 inch diameter. We take all vegetation such as leaves, pine cones, grass, etc. It must not be bagged. The charge is \$55/ton or \$10 minimum fee for 280 lbs or under. No rocks or soil or stumps. No building or metal debris from fires allowed.

Larger tree pieces (cut up trunks, roots, stumps etc) are charged as regular garbage, and must be dropped off separately from the above material. The charge for these is \$114/ton or \$17 minimum fee for loads 300 lbs and under. It would be preferable to have items cut into smaller portions (6' and under).
