Comprehensive Plan Amendments

The Growth Management Act allows counties to amend their comprehensive plan once a year with the caveat that the county must consider the collective and cumulative impact of all proposed amendments on their impact on capital facilities and act on all proposed amendments simultaneously.

Spokane County Planning evaluated four new amendments and two continued from prior years for consideration by the Planning Commission — five propose to increase land availability or density for housing, one proposes to change rural lands to Regional Commercial.

The 2024 package includes proposed amendments submitted by the public.

Today’s Public Hearing is to take public testimony in support or opposition to initiating these proposed amendments by the Board of County Commissioners.
